Procyon Health and Safety Facts

Extensively Researched and Tested

Procyon cleaning products are comprised of a proprietary solution of inorganic products. As such, they contain no volatile organic compounds (VOCs) as tested and verified by the analytical forensic testing laboratory, Analytical Chemistry Inc. of Tukwila, WA.

In addition, nationally recognized indoor air quality experts, Miles Athey, PhD, toxicology, and Richard Knights, PhD, analytical chemistry, have thoroughly tested and researched the Procyon cleaning products for health and safety concerns and their cleaning effectiveness.

“No other carpet cleaning products or processes have demonstrated the consistent level of cleaning effectiveness of Procyon in my fifteen years of testing these products in schools and other public facilities.” Dr. Miles Athey, ACS, Ritzville, WA.

Safe for Asthmatic and Allergy-Sensitive Individuals

Extensive research during the past 15 years in numerous schools, medical and other public facilities has demonstrated that Procyon cleaning products are safe for use around asthmatic and allergy sensitive occupants.

Preferred by Custodial Professionals

Plus Manufacturing Inc. cleaning products, carrying the Procyon label, have been appreciated by hundreds of health conscious custodial professionals nationwide and around the world since their inception in 1980.

Green Seal Certified

Procyon cleaning products were the first carpet and surface cleaning products certified by Green Seal for environmental, human health and safety.
